The following action is in response to the amendment received April 4, 2007.

Allowable Subject Matter

Claims 1-19 are allowed. Claims 1-14, 16, 15 and 17-19 will be renumbered for printing as claims 1-19, respectively.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

After reconsideration in view of applicants' argument received April 4, 2007, it is agreed that the applied references are sufficiently different in principle of operation that their combination would not have been obvious within the meaning of 35 USC 103. Thus the prior art fails to show or render obvious a clutch for transferring torque, the clutch having a cam, rotor and pistons as defined in claims 1 and 11 wherein a rheological fluid is in the chamber and an activation means or electrical device is provided for varying the viscosity of the rheological fluid to control slippage between the cam and rotor. Similarly, the art of record fails to show or teach the process for transmitting torque as defined in claim 17 and particularly the step of controlling the viscosity of the rheological fluid to render it viscous enough that the pistons grip the camming surface of the first member sufficiently to enable torque to be transferred between the members.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Amendment

In view of applicants' amendments, the rejection of claims 5 and 19 under 35 USC 112, 2nd paragraph, in the previous Office action is withdrawn. As noted above, after reconsideration, it is agreed that the claims distinguish over the applied art. Accordingly, the rejection based on 35 USC 103(a) in the previous Office action is withdrawn.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rodney H. Bonck whose telephone number is (571) 272-7089. The examiner can normally be reached on Monday-Friday 7:00AM - 3:30PM.
